DELTA-stadium
Live 3D animations for giant screens

## Scoring and graphics for stadium and arena screens

DELTA-stadium is the perfect solution to create momentum and enhance fan's experience in-stadium!

Available as software only or as complete turnkey solution, DELTA-stadium is designed to generate audio & video animations for giant screens such as start & final countdown, timer, number of on venue visitors, music jingle, kiss cam, alongside in-stadium on-screen data & advanced statistics information.

DELTA-stadium offers the opportunity to create 2D and 3D graphics for multisport live productions easily customizable.
Advanced Database Engine
Input information about referees, commentators, players classified by sport, team, and nationality. Each field can be customized to store various type of information such as age, height, weight, rank, position... Pictures and videos can be attached to each entry form.

Intuitive Graphic Design Tool
Create customized high-end 2D & 3D graphics & animations, using information from the database, insert logos, titles, clips, animate and synchronize them to deliver high-end quality graphics.
